Consider working for the Bureau of Land Management (BLM). The BLM manages nearly one-eighth of all land within the United States--almost 258 million surface acres. The BLM also administers on-shore minerals underlying most other Federal lands--a total of about 700 million acres of minerals throughout the nation. Most of this public land is located in 11 Western States including Alaska, and includes some of the most ecologically and culturally diverse and scientifically important lands in Federal ownership.

BLM's mission is to "sustain the health, diversity, and productivity of the public lands for the use and enjoyment of present and future generations." For additional information about the BLM, please visit [Our website](#).

These positions are being advertised in multiple locations, however, all positions may not be filled or they may be filled at different times depending on budget, hiring needs, and requirements.

These positions are temporary and are expected to last for approximately 6 months. These positions have no promotion potential, if you want to be considered for a higher grade you must apply for the higher grade.

KEY REQUIREMENTS:

- Security Clearance/Background Investigation is required.
- Travel and relocation expenses will not be paid
