

# ROSEBURG RESOURCES CO.

A subsidiary of Roseburg Forest Products

Roseburg Resources Company is currently seeking to fill **TWO Forestry Intern positions** for the Summer 2008 field season. One position is located in Veneta, Oregon and other is located in Roseburg, Oregon. These are 3 month positions. Wages will be commensurate with experience. Start dates will be the week of June 16, 2008.

## FORESTRY INTERN

- Conducts land exams and prepare prescriptions for vegetation control, animal damage control and tree planting.
- Prepares maps and maintains records for assigned projects.
- Conducts forest inventory sampling employing both variable and fixed radius plots. Collects information on hand held data recorders and processes data on personal computers.
- Assists with broadcast burning. (weather permitting)
- Assists with fire suppression on company lands.
- Assists with the installation, measurement and data analysis of research plots.

The ideal candidates will be highly motivated team players who can perform well independently in a variety of terrain and weather conditions. Prior silvicultural experience is preferred but not required. A valid driver's license and a good driving history are required.

**Please submit a resume and 3 references by ASAP** to one of the following locations. Requested information may be mailed, faxed or emailed. Send information to one preferred location only.
